

ASPIRE Values

Respect

Respect for ideas, thoughts, time, and contributions;

Communication by listening first;

Approaching engagement through a lens of *joy and positivity*;

Achievement

Service through centering the community and acting in partnership to deliver meaningful change;

Collective impact through shared commitments and contributions across stakeholders in the systemic amyloidosis community;

Accountability where each member is trusted to say what they mean and do what they commit to;

Urgency

Agility to grow, evolve, and make changes informed by evaluation and feedback;

Courageousness

Collaboration through non-competitive interactions;

Ability to *think big* and challenge ourselves and others to move beyond the status quo;

Advocacy to support continued independence, self-sustainability, and championship of the work we do within professional networks;

Inclusivity, equity

A *focus* on amyloidosis communities that have not been equitably invested in with low disease state awareness or resources for patients; and

Engage all stakeholders within the amyloidosis community.
